1. The following is an examiner's statement of reasons for allowance:

A review of applicants' arguments in Amendment filed on November 27, 2000 and a careful review of the instant amended claims has convinced the examiner that the claims are allowable over the applied prior art of record. The prior art fails to teach or suggest that the first surface of the plastic substrate is coated with an ink receptive coating for receiving ink jet coating image and said receptive coating encapsulates the ink to prevent bleeding thereby providing high degree of print resolution. Also, no evidentiary support could be provided to support the position that the instant invention would have been obvious to one having ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nasser Ahmad whose telephone number is (703) 308-4424.
